## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 3-5,8,9 are rejected under 35 U.S.C. 102(e) as being anticipated by Gaastra (US 6,327,469).

Consider claim 8. Gaastra teaches a cellular mobile station with means for communicating user information on a traffic channel using a TDMA protocol between the base station of the current cell and the mobile (Gaastra see especially col 4, lines 23-55) and means for performing level measurement of neighboring base stations (Gaastra see especially col 2, line 40 – col 3, lines 5) comprising means for preventing measurements of the neighboring cells during a TDMA frame allocated to traffic channels, in that since Gaastra only performs the measurements during idle periods, measurement during allocated traffic slots is prevented (Gaastra see especially col 3, lines 5-60).

As to claims 3,5, the mobile of Gaastra would perform the claimed steps.

As to claim 4, note that an idle frame is an empty frame, from the point of view of the mobile.

As to claim 9, note that during the periods when the mobile is not moving, it is a stationary mobile station.

### **Allowable Subject Matter**

3. Claims 1,2,6,7 are allowed.

Consider claims 1,6. The nearest prior art as shown in Gaastra fails to teach a method, or a mobile for performing the method, for determining channel information in a cellular system where a TDMA protocol is used on the traffic channel allocated to the connection for transmitting user information during a connection between a mobile station and a base station of the current cell, in which the base station identity codes of the neighbor cell are received and stored characterized in that the reception of the base station identity codes of the neighbor cells is prevented during the whole user traffic connection.

### **Response to Arguments**

4. Applicant's arguments with respect to claims 3-5,8,9 have been considered but are moot in view of the new ground(s) of rejection.

### **Conclusion**

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip J. Sobutka whose telephone number is 703-305-4825. The examiner can normally be reached on Monday-Friday 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on 703-308-7745.
